

NAILED COMPACT

Deck Mount Navigation Lamps

The new-look NaviLED Compact Deck Lamp reflects Hella marine's commitment to continuous improvement and full compliance with international standards. This more compact, refined design features clean lines with no visible fasteners once installed, along with an optional stainless steel bezel for a premium finish.

NaviLED Compact Deck Mount lamps are compliant with the latest American Boat and Yacht Council (ABYC) standards, supporting vessel requirements up to 20m (65ft) LOA, and bring together multiple certifications across the range to deliver the highest level of compliance.

The lamp's Multivolt circuitry further enhances safety, maintaining the required 2NM minimum visibility even when system voltage drops to as low as 9V.

Lamp Type	Black Shroud	White Shroud	Stainless Shroud
Port	2LT 017 910-001	2LT 017 910-101	2LT 017 910-011
Starboard	2LT 017 910-301	2LT 017 910-401	2LT 017 910-311
Port & Starboard Kit	2LT 017 910-801	2LT 017 910-811	2LT 017 910-821
Bi-Colour	2LT 017 910-501	2LT 017 910-601	2LT 017 910-511

Packaging Retail carton for single pack. PN shown in table above

Mounting	Horizontal surface mount Two-hole screw mount, No visible fasteners
Visibility	2NM Powerboat (Port & Starboard) 2NM Powerboat (Bi-Colour)
Lens Material	High impact and UV resistant acrylic
Operating Voltage	Multivolt™ 9–32V DC for 12 / 24V DC applications
Voltage Protection	Reverse polarity protected
Power Consumption	Port and Starboard 2.3W combined Bi-Colour 2.3W Max
Cable	120mm of tinned marine cable
Protection	IP67, IP69 (Completely Sealed) Suitable for submersion in operation and high pressure water jet cleaning
Approvals	IMO COLREG 72, USCG 33 CFR 183.810, ABYC C-5:2024, NMMA Type Accepted, ISO 19009:2015, EN60945:2002, RINA, CE, RCM, UKCA

NaviLED COMPACT

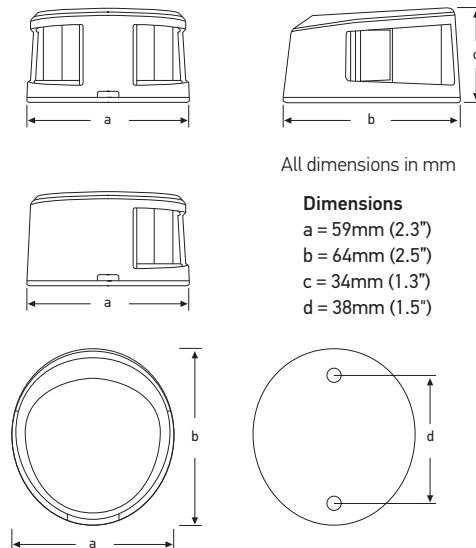

Deck Mount Navigation Lamps

Hella marine lamps are rated at IP67 and completely sealed. UV from the sun, corrosive salt air and constant vibration, these lamps are impervious to the marine environment. They are designed with components that suppress possible interference, both emission as well as susceptibility to emissions, to the limits prescribed in international standards. This prevents possible interference with radio, communication, navigation and other electrical equipment on board.

Compliance details can be confirmed directly at the NMMA website:
www.nmma.org/certification/components/type-accepted

For further information regarding C-5, please contact your local regional representative.
